

Earthweek Activities

Sponsored by Interfaith Climate Action, Northeast Earth Coalition, the Township of Montclair, and Montclair Institute of Lifelong Learning

Friday April 17, 7-9 PM THE SERENGETI RULES (video)

Sunday April 19, 1-3 PM

Follow five scientists as they discover the "rules" that govern ecosystems. This award-winning documentary offers many topics for our discussion afterwards.

LOCATION: Unitarian Universalist Congregation of Montclair

67 Church Street, Fletcher Hall, Montclair

Wednesday APRIL 22, 7-9 PM THE LITTLE THINGS THAT RUN THE WORLD (video)

(Part of Northeast Earth Coalition's Bee City USA program.)

The smallest of creatures – insects – hold the fabric of all life together. Their numbers are immense, but are declining at an alarming rate. This is the story of what is causing the decline and the heroic efforts being made to save them.

Register: <https://neearth.org/events/movie-screening-the-little-things-that-run-the-world-earth-week-celebration/>

LOCATION: *First Congregational Church, Guild Room

40 S Fullerton, Montclair

Friday APRIL 24, 11:30-12:30 PM RIDWELL (vendor presentation)

Learn about how you can put "unrecyclable" plastic (bags, food wrappers, chip bags, snack bags, bottle caps etc) back into the system to create Trex decking and HydroBlox drainage systems.

LOCATION: Montclair Public Library

50 S Fullerton, Montclair

Sunday APRIL 26, 12-4 PM EARTHFEST MONTCLAIR (street fair)

Find out more about local business and nonprofits championing sustainable practices and eco-friendly alternatives with demos of EVs, energy efficient appliances, and more.

LOCATION: South Park St between Bloomfield Ave. and Church Street, Montclair

Join the congregational walk on Sunday April 26 at 12:15 (after coffee hour) from FCC's parking lot to Montclair's Earthfest on South Park.

Sunday APRIL 26, 4:30-6 PM THE LIGHT WON'T DIM (video)

Using examples from Puerto Rico as well as northern New England the power from the sun enables people to become energy independent, while simultaneously improving health and reducing the electrical expense. And, as a sidenote, also reducing carbon emissions. Discussion will include "portable" solar.

LOCATION: *First Congregational Church, Guild Room

40 S Fullerton, Montclair

*Use the back door (up the steps) from the parking lot off The Crescent.
